

## Lil Li8 – Pendant

Illumin8's i8 pendant light is a small handcrafted locally manufactured LED interior up/down light. The pendants are very unique and are supplied with a separate circuit for up and down lighting. That means you can have the light up or down or both. At 8 x 1watt LEDs these lights pack a good punch at low energy consumption. They can be supplied at any length to suit your home environment and are available in anodised black or natural (Silver)
