

## Lil Li8 – Wall Up Down Light

Illumin8's i8 up/down light is a small handcrafted locally manufactured LED light. These lights are also outdoor rated for all exterior wall applications including for seaside homes. The running costs are at an absolute minimum given the 1 watt LED and they are rated for 50000 hrs running time. By changing the driver you alter the output from 1 to 2 watts up and down. The fittings look stunning in coves or entranceways both inside and outside.

### i8UD-2730-N
